JAY KHAMAR

CYBERSECURITY ANALYST

M.TECH - CYBER SECURITY & INCIDENT RESPONSE

+918511522922

jay.khamar.sec@gmail.com

Experienced and vigilant Cyber Security Analyst proficient in swiftly identifying, analyzing, and mitigating security incidents to protect organizations from cyber threats. Committed to proactively defending against evolving threats and maintaining the highest standards of cybersecurity.

SKILLS

- Detection & Triage
- Email Security
- Incident Response
- OSINT
- Threat Hunting
- Malware Analysis
- Threat Modelling
- MITRE ATT&CK

WORK EXPERIENCE

Forescout Technologies

SOC Analyst • Sep 2022 - June 2026

- ***Monitoring & Detection**, using in-house built ELK based SIEM(Forescout Cloud), to detect potential security incidents and anomalies, such as unauthorized access attempts, malware infections, suspicious network traffic, web attacks, etc.*
- ***Triage & Root-cause Analysis** using Forescout Cloud(Kibana, KQL), EDRs(CrowdStrike, TrendMicro Vision One, Carbon Black), multiple other log sources like IDS/IPS, WAF. Antivirus, threat intel feeds, etc and document all the appropriate findings and evidence with relevant logs.*
- *Conducted containment and remediation for clients taking **end-to-end incident responsibility**.*
- ***Mentoring** Junior Analysts and performing **peer-reviews** in critical incidents.*
- *Pro-actively performed **Threat-Hunts** for on-going incidents, threat-intel, network traffic anomaly.*
- *Contributed in **creation and fine-tuning** of the SIEM filters and correlations to continuously improve monitoring. Also, actively monitored health of the connectors and log sources to ensure proper log ingestion.*

TIAA

Incident Response Specialist • Oct 2020 – Sep 2022

- ***Monitored** platforms like SIEM(Splunk), Phishing Portal, EDR(CrowdStrike), etc.*
- *Performed **in-depth analysis** of the alerts, depending upon the type of alert, using various tools.*
- *Maintained proper documentation with investigation details using Archer, Ivanti landesk, etc.*
- *Performed **Incident Response** tasks for the true positive incidents and **collaborated** with relevant teams for proper resolution.*
- *Performed **Vulnerability Assessments** when required and reviewed scanning reports.*
- *Got shifted to **TIAA Bank** during transition period, worked closely with **Threat-intel** and got recognized with **Bronze Award** for my contribution in **establishing** processes; **creating and fine-tuning** use-cases.*
- *Worked closely with leadership and implementation teams for **reducing the redundancy** in use cases and **choosing appropriate tools and technologies** to implement.*
- *Performed **Threat-hunts** whenever required. Got appreciated for my contribution in **Log4j Outbreak** with **spot-award.***
- *Contributed in **training T1 Analysts, validating** their findings on any critical incidents and assisted them when necessary.*

BNP Paribas

Security Analyst SMC • Apr 2019 – Oct 2020

- ***Monitored, analyzed*** *security events/alerts to know the security impact and prioritize them.*
- *Worked on various tools and technologies like SIEM(Arcsight Console+Logger), Firewalls, Antivirus, FIM, IDS/IPS, Endpoint Security, McAfee ATD, The Hive, Archer, Servicenow, etc.*
- *Performed* ***triage/RCA*** *and document evidences to give* ***first level response to true-positive incidents****.*
- *Worked on scheduled tasks and* ***ad-hoc requests*** *and prepared detailed reports for Stakeholders.*
- *Actively participated in* ***Cyber Security drills/exercises conducted by IDRBT.*** *Extensively monitored WAF traffic which was the most essential to identify the payloads and attacks.*
- ***Created and fine-tuned*** *use cases, channels, reports, etc.*
- ***Performed tasks of senior analysts*** *like validating reports/incident analysis, quality assessment, hosting inter-team meetings, tracking and validating implementations of different use-cases and reports.*

INTERNSHIPS

Reliance Jio

Cybersecurity Intern • Feb 2018 – Jun 2018

- *Monitored social media engagements; performed data dump analysis, trend analysis, sentiment analysis; and prepared reports related to incidents, frauds, threats, etc.*
- *Also, researched extensively on social media monitoring and data analysis related to my MTech Thesis.*
- *Tools: Locobuzz, twitter, tweetdeck, VADER, MS Excel, etc.*

Cyber Cell(Thane City) & Maharashtra Cyber

Cybersecurity Intern • Oct 2017 – Jan 2018

- *Attended several demonstrations of different tools and prepared POCs to give appropriate suggestions.*
- *Got associated with the oldest and the largest Cyber Cell of the state and assisted the Cyber Police in analysis, investigation, and basic forensics.*
- *Learned the trend of modern cyber frauds and crimes to understand requirements of tools, technologies, skills, process to give appropriate suggestions to Maharashtra Cyber.*
- *Got appreciated for helping police use IP grabbers to collect information about criminals that can accelerate their investigation process.*
- *Tools: InnSight (For Social media monitoring for LEA), CDR Analysis tools, EnCase, IP Grabbers, OSINT, etc.*

Reliance Jio

Cybersecurity Intern • Jun 2017 – Sep 2017

- *Open source investigation to trace the social media accounts of persons behind frauds, and monitored the open source platforms to predict unwanted activities/events/threats related to organization/country.*
- *Tools: Locobuzz, Dataminr, VADER, other OSINT tools.*

EDUCATION

Cyber Security & Incident Response | Master of Technology
Gujarat Forensic Sciences University | June 2018
7.1 CGPA

Information Technology | Bachelor of Engineering
Gujarat Technological University | May 2014
6.34 CGPA

PROJECTS

Predicting Criminal Events From Twitter | M.Tech Thesis

- Researched on what data we can obtain from twitter and how we can process it.
- Designed a detailed technique to process tweets to generate early warnings/predictions about criminal events before they happen.

Steganography In Multimedia | B.E. Project

- Developed a JAVA based application for Steganography.
- We used 'Improved LSB algorithm' to embed text into multimedia.

MICRO-CERTIFICATIONS

Bug Bounty Hunting: An Offensive Approach to Hunt Bugs | Udemy
License UC-1677CQI8

Advanced Web App Penetration Testing with Burp Suite | Pluralsite
License REP-ID-4127

ACTIVITIES & ACHIEVEMENTS

- Bronze Award in TIAA Bank transition.
- Spot Award for working frontline during Log4j outbreak.
- 3rd place in "CodeJar" coding competition held in SVBIT.
- Attended various Seminars and Security Conferences.

LANGUAGES

- English - Advance C1
- Hindi - Proficient (Native speaker)
- Gujarati - Proficient (Mother Tongue)
